

Aichi Expo 10th Anniversary

INTERPRETER WORLD CONGRESS

Planning and implementation/Special program planning and implementation

Proposed Plan

Planning Points

- Creating a place to display our heritage of Nature’s wisdom, which was the theme of the 2005 World Expo, Aichi
- Creation of educational opportunities that will foster a global vision that embodies the ESD viewpoints established at COP10
- Invite interpreters (forest/nature guides) from Japan and overseas who will arouse interest
- Attract more participants by using celebrity speakers, implementing a PR plan etc.

Concepts

Presentations on the theme “Love for the Earth”

Through the environmental projects undertaken by Aichi Prefecture since the 2005 World Expo, Aichi, COP10 of 2010 and the 2014 UNESCO World Congress on ESD, a sense of caring for and love for the earth has taken root in the people of our prefecture and, as the scope of our sustainable social development projects expands...

In the 10th anniversary memorial year of the Aichi Expo that is to be commemorated, Nature-loving messengers from Japan and overseas will gather at Morikoro Park and from that originating point will send a message, from Aichi to the world, of love for the earth, thereby establishing the appeal of Aichi as the “environmental capital of the world”.

Proposed Event Title

Forest-lovers: Join Forces!

Interpreter World Congress commemorating the 10th anniversary of the Aichi Expo

Harnessing the strength and the message of interpreters from Japan and overseas, lovers of Nature and of forests, we will put on a program that will be able to revive recognition of the importance of the power of the love of forests, and of Nature’s wisdom.

Venue Layout

Venue: Aichi Prefectural University Nagakute Campus (1522-3 Ibaragabasama, Nagakute City, Aichi)
